GLASSWARE and LIGHTING FIXTURES

CATALOG NO. 26

COMMERCIAL LIGHTING

RESIDENTIAL LIGHTING

Tomberg Electric Supply Co.

205-207 Washington Street

Wilkes-Barre, Penna.

Mr. Archie H. Miner,

194041.

How to Order

1. Our terms are 1% 15 days, net 30 days.
2. This Catalogue illustrates our line of Residential and Commercial Glassware and Lighting Fixtures and supersedes all previous issues. Items appearing in previous catalogues which are not illustrated in this one have been discontinued.
3. "Practically all items are packed in specially designed cartons with proper interior parts for each particular number. Our standard packages contain as few of each article as is economically practicable, and for this reason, we do not solicit nor can we accept orders for less than standard packages."
4. Orders on which specifications are not definitely clear cannot be filled without considerable loss of time consumed in writing for needed information. Follow instructions when ordering to facilitate prompt service.
5. State clearly how the goods ordered are to be shipped, whether by freight, express or otherwise. If there is any preference for a certain route, it should be mentioned on the order.
6. Great care is used in filling orders promptly, packing goods properly and obtaining receipts from carriers for delivery in good condition. We cannot, therefore, be responsible for goods damaged or lost in transportation. All possible precautions, however, will be used to prevent injury or delay and if requested, shipment will be traced.
7. All claims concerning the shipment of goods must be made within one week after their receipt.
8. When referring to orders always give the number and date of your order.
9. Orders from persons unknown to us, unless properly rated by commercial agencies should be accompanied by draft or business references, or, if desired to be sent C.O.D., an amount sufficient to cover express or freight charges.
10. "Railroad rates are based on minimum weights of 100 lbs. and if customers order less than 100 lbs. we will assume immediate shipment is desired regardless of weight, unless the order specifically requests shipment with other goods."

*Bottom rings of Enameled Units are Opal and Crystal consecutively.

When ordering, please mention number and size required.

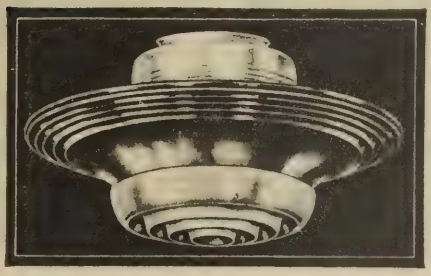
Series 1200

Semi-Indirect Units for Stores, Showrooms, Offices etc.

Metal Reflector furnished in two finishes:

Sprayed "CHROMALUSTRE" with Polished Aluminum Highlights.

Sprayed "GOLDLUSTRE" with Polished Gold Highlights.



Glass Units can be furnished in either of three finishes:—

1 "Hyperion" Opal
2 Enameled-Crystal Bottom.
3 Blue Bottom.

To avoid errors, please specify finish required when ordering.

Inside Reflectors are finished in Hard White Porcelain-effect Enamel.

1215—Plain Opal
1215 E—Enameled Bottom
1215 B—Blue Bottom

Diameter of Reflector.....15 inches
Glassware....Diam. 8½ in. Depth 8½ in. Fitter 4 and 6 ins.
Packed 4 to a Standard Carton.
*Packed 1 to a Standard Carton, add 30 cents to List Price

1219—Plain Opal
1219 E—Enameled Bottom
1219 B—Blue Bottom

Diameter of Reflector.....19 inches
Glassware.....Diam. 12 in. Depth 8½ in. Fitter 6 ins.
Packed 1 to a Standard Carton.

1222—Plain Opal
1222 E—Enameled Bottom
1222 B—Blue Bottom

Diameter of Reflector.....22 inches
Glassware.....Diam. 14 in. Depth 10 in. Fitter 6 ins.
Packed 1 to a Standard Carton.

1225—Plain Opal
1225 E—Enameled Bottom
1225 B—Blue Bottom

Diameter of Reflector.....25 inches
Glassware.....Dia. 16 in. Depth 11⅛ in. Fitter 6 in.
Packed 1 to a Standard Carton.

*Note: Unless otherwise noted on order, all units will be supplied. Packed 1 to a Carton.

When Ordering, please specify Number, Finish and Size of Glass Fitter.

Series 2200

Semi-Indirect Units for Stores, Showrooms, Offices, Etc.

2215—Plain Opal Unit
2215 E—Enameled Bottom
2215 B—Blue Bottom

Diameter of Louvre.....15 inches
Glassware.....Diam. 8½ ins. Depth 8½ ins. Fitter 4 and 6 ins.
Packed 4 to a Standard Carton.
*Packed 1 to a Carton, add 30 cents to list price

2219—Plain Opal Unit
2219 E—Enameled Bottom
2219 B—Blue Bottom

Diameter of Louvre.....19 inches
Glassware.....Diam. 12 ins. Depth 8½ ins. Fitter 6 ins.
Packed 1 to a Standard Carton.

2222—Plain Opal Unit
2222 E—Enameled Bottom
2222 B—Blue Bottom

Diameter of Louvre.....22 inches
Glassware.....Diam. 14 ins. Depth 11⅛ ins. Fitter 6 ins.
Packed 1 to a Standard Carton.

2225—Plain Opal Unit
2225 E—Enameled Bottom
2225 B—Blue Bottom

Diameter of Louvre.....25 inches
Glassware.....Diam. 16 ins. Depth 11⅛ ins. Fitter 6 ins.
Packed 1 to a Standard Carton.

*Unless otherwise noted on order, all units will be furnished packed 1 to a Standard Carton.

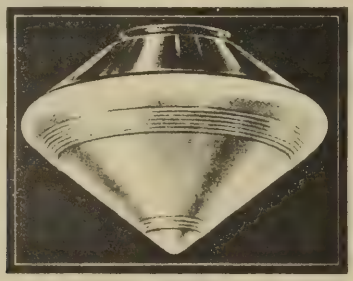
SERIES G-6100

Semi-Indirect Units

An Outstanding Semi-indirect Enclosed Type Unit for Lighting Offices, Schools, Hospitals, Stores, Assembly Rooms, Libraries and All Other Places Where Adequate Illumination, Without Eye-strain, is Essential.

PERFORMANCE — These Semi-Indirect Units, when tested by the Electrical Testing Laboratories of New York, show an overall efficiency of 83.5%, the maximum surface brightness is less than 1.0 candlepower per square inch at any point in line of vision; and less than 20% of the light output of the lamp is directed in the 0°-90° zone and more than 60% in the 90°-180° zone.



DESIGN — In order to secure wide, even distribution of the light directed toward the ceiling, a feature so desirable and important in semi-indirect lighting, the shape, proportions and sizes of this unit were especially devised and perfected by a prominent illuminating engineer of long experience in designing Government and commercial lighting equipment.

GLASS — The upper portion of the globe is of extremely light opacity, so as to allow the maximum of light to be reflected upward from the dense white lower portion of the globe. This dense white effect is produced by a special process in manufacturing and is an integral, permanent characteristic of the glass itself, not subject to deterioration or change of any kind. No external application whatever is employed, such as enameling, roughing or acid finishing.

Number	Dimensions Diam. Length Fitter	Standard Package	Weight Standard Package	Suggested Wattage	Prices

Open back and Partly Open Back Windows

No. 1100
No. 1150

Closed Back Windows

Windows having a solid background extending from floor to ceiling.

No. 3100
No. 3150

Island Windows

Windows having plate glass on both sides.

—

Open back and partly open back windows.

Windows having the back entirely open.
Windows having the back partly open.
Windows having the back entirely closed, but with glass panels in the background.

Mirroflectors are made of pure Crystal glass with two coats of genuine Silver applied—then a plating of Copper, followed by a silver powder baked on with a special varnish, which is a guarantee against peeling of the mirrored surface.

Mirroflectors are furnished complete with metal adaptors which are finished in Satin Finished Silver Color.

Flush mounting Rings can be furnished for all Mirroflectors. Add 93c. each, list.
